

Impact Analysis Statement

Summary IAS

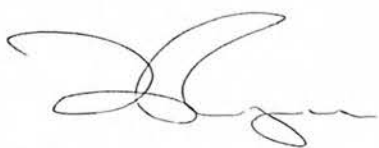

Details

Lead department	Queensland Health
Name of the proposal	Proclamation – <i>Health Legislation Amendment Act (No. 3) 2025</i> (commencing remaining provisions)
Submission type	Summary IAS
Title of related legislative or regulatory instrument	<i>Health Legislation Amendment Act (No. 3) 2025</i>
Date of issue	August 2026

For proposals noted in table below, complete and delete rows where applicable. No further analysis is required.

Proposal type	Details
Minor and machinery in nature	The Proclamation will commence the uncommenced provisions of the <i>Health Legislation Amendment Act (No. 3) 2025</i> (Amendment Act) that amend the <i>Private Health Facilities Act 1999</i> (Act) on 1 October 2026. The uncommenced provisions, being section 77 and 78 of the Amendment Act: • amend the head of power within section 48 of the Act to allow the <i>Private Health Facilities Regulation 2016</i> to prescribe standards for accreditation for particular types of facilities, as well as continue to prescribe the National Safety and Quality Health Services Standards as a standard of accreditation to be complied with by all private health facilities; and • make a minor drafting clarification to section 50 of the Act, that the term of licences must not exceed 3 years if the licence is being renewed under division 5 of the Act. Queensland Health has assessed the Proclamation as minor and machinery in nature, as it commences legislation that has already been passed but is not yet in operation. This determination has been made in line with the Queensland Government <i>Better Regulation Policy</i>, as the Proclamation contains declaratory provisions that do not introduce new regulatory impacts and does not require further regulatory impact analysis.

Signed

Dr David Rosengren
Director-General, Queensland Health
Date: 26 / 08 / 2026

The Honourable Tim Nicholls MP
Minister for Health and Ambulance Services
Date: 2/9/26
